

Love Him

Donna Lewis

You are the cool earth
you are the city lights
you are the jewel
forever in my sight

You with the strong heart
you with the trusting words
you shutting your eyes
slumber in your soft chair

Ah love him
Ah love him...

I see you in the mellow sun
In weekday overalls
you with a hint of white
and a wave of gold

you walk like blue ice
tender but tough
you are my morning glory

Ah love him... ... you are the sky my big sky
Ah love him... ... you are the guy my big guy
Ah love him... ... you are the sky my big sky
Ah love him... ... you are the guy my big guy

2 little girls
2 guys strumming
Howie and Louie start playing the blues
It had to be you
wonderful you
In all of me

Ah love him... ... you are the sky my big sky
Ah love him... ... you are the guy my big guy

You are the cool earth (yeh yeh)
you are the gentle rain (yeh yeh)
you are the note that remains
you are my big sky

You are the cool cool earth
you are the gentle rain
ah love him
you are my big sky
my big guy
my big big sky
