

# Any Way at All

Donna Summer

Well never know  
where the winds of love  
will carry  
our hearts unfold  
into the hands of time  
nothing will ever change  
this love we share  
no matter what it takes  
I will be there  
When the sun goes high  
you pray for clouds to break  
reach up to the sky  
and pray for it to rain  
when the times get hard  
you rely on your faith  
will be together  
if there's any way at all  
if there's any way at all  
Don't be afraid  
'cause we're in  
this love together  
we'll ride the waves  
'till we reach the other side  
your love is life to me  
none can compare  
no matter what it takes  
I will be there  
When the sun goes high  
you pray for  
clouds to break  
Reach up to the sky  
and pray for it to rain  
when the times get hard  
you rely on your faith  
will be together  
if there's any way at all  
if there's any way at all  
If there's any way at all  
we'll be together baby  
if there's any way at all  
we'll be together forever and ever  
Reach up to the sky  
and pray for it to rain  
when the times get hard  
you rely on your faith  
will be together  
if there's any way at all  
if there's any way at all
