

Any Way at All

Donna Summer

Well never know
where the winds of love
will carry
our hearts unfold
into the hands of time
nothing will ever change
this love we share
no matter what it takes
I will be there
When the sun goes high
you pray for clouds to break
reach up to the sky
and pray for it to rain
when the times get hard
you rely on your faith
will be together
if there's any way at all
if there's any way at all
Don't be afraid
'cause we're in
this love together
we'll ride the waves
'till we reach the other side
your love is life to me
none can compare
no matter what it takes
I will be there
When the sun goes high
you pray for
clouds to break
Reach up to the sky
and pray for it to rain
when the times get hard
you rely on your faith
will be together
if there's any way at all
if there's any way at all
If there's any way at all
we'll be together baby
if there's any way at all
we'll be together forever and ever
Reach up to the sky
and pray for it to rain
when the times get hard
you rely on your faith
will be together
if there's any way at all
if there's any way at all
