

# Forgive Me

Donna Summer

Every day I give you a reason to cry  
'cause I see the hurt in your eyes  
But stronger yet  
I see the love that shines  
Help me learn to take on the nature of you  
And love more than I accuse  
And pardon others like you taught me to

Something happens inside my heart  
Lord when I obey  
Something happens inside my heart  
Every time I pray

Forgive me  
As I learned how to forgive  
And reach out through the pain  
And touch with hands of grace  
Forgive me  
As I learn how to forgive  
And reach out through my own pain  
And touch with hands of grace

As you prayed for those who crucified you  
"forgive they don't know what they do"  
Compassion reached out to a world confused  
Help me learn to bless those who persecute me  
And pray for my enemies  
And show them mercy like you've shown to me

'Cause something happens inside my heart  
Lord when I obey  
Something happens inside my heart  
Every time I pray

Forgive me  
As I learn how to forgive  
The ones that broke my heart  
The way I've broken yours  
Forgive me  
As I learn how to forgive  
And reach out through my own pain  
And touch with hands of grace

Forgive me
