

# Grand Illusion

Donna Summer

Oh grand illusion, like to fade away  
Take me and go out and play, oh yeah  
It's no intrusion, it's like a rainy day  
That can wash the clouds away of this pain inside

Harmony, we need harmony  
Find the melody that puts our hearts in tune  
Harmony, we need harmony  
Simple symphony that makes us feel brand new

Oh grand illusion, like to fade away  
Take me and go out and play, Oh yeah  
It's no intrusion, it's like a rainy day  
That can wash the clouds away of this pain inside

Harmony, we need harmony  
Find the melody that puts our hearts in tune  
Harmony, we need harmony  
Simple symphony that makes us feel brand new  
Harmony, harmony

Oh grand illusion, like to fade away  
Take me and go out and play, Oh yeah  
It's no intrusion, it's like a rainy day  
That can wash the clouds away of this pain inside

Come on now, boy, put it on the line  
Take some space just to ease your mind  
And to think it through
