Let's Work Together Now

Donna Summer

Different faces other races New conditions old traditions All are one

From the humble to the mighty Those in need and those with plenty All are one Yes we all are one

Let's work together now Towards a better kind of world One for our children's child Let's work together now Respect our neighbor's way of life We've got to harmonize

Learn to give without return And you will find yourself With all the friends you need

All these problems on this earth Are only due to selfish acts of men's on greed Let's stop all this creed

Let's work together now Let's make a better kind of world Think of our children's child Please work together now Respect each person's way of life Let's start to harmonize

Different faces other races New conditions old traditions All are one

From the humble to the mighty Those in need and those with plenty All are one, yes we all are one

Let's work together now Let's make a better kind of world Think of our children's child Please work together now Respect each person's way of life Let's start to harmonize Let's work together now Let's make a better kind of world Think of our children's child
