

# Melody of Love (Wanna Be Loved)

Donna Summer

I always stayed away from love  
afraid of what might might happen  
till I thought I heard a sound above  
singing through my very own heart  
was a melody I never heard  
like birds singing loud to the sky

Never dreamed that true love would help me  
find my way didn't know how deep I'd fallen  
until you rescued, rescued me  
suddenly strings began  
I heard the melody again and again  
the sound of music flowing through my head  
so rare I'm walking on air

Melody of love  
sing that song for me yeah  
I want to hear somebody sing  
Melody of love  
oh take me away

One lonely night  
you up and dance into my dreams  
baby you set my heart on fire  
so I've been burning  
burning ever since yeah  
suddenly strings began  
I hear the melody again and again  
the sounds of trumpets  
flowing through my head  
so rare I'm walking on air

Melody of love  
sing that song for me yeah  
I want to hear somebody sing  
Melody of love  
oh take me away  
Melody of love  
oh set me free yeah  
I want to hear somebody sing  
Melody of love  
oh take me away

Oh Melody  
oh Melody  
I can really feel it  
you can feel it, too  
oh Melody  
oh Melody

Melody of love  
sing that song for me yeah  
I want to hear somebody sing  
Melody of love  
oh take me away  
Melody of love  
oh set me free yeah

I want to hear somebody sing  
Melody of love  
oh take me away
