

# My Life

Donna Summer

When I was young  
I used to dream of going far  
Having my once, in a lifetime change  
To prove I was a star.  
A thousand times you stood  
In the wings  
Dreaming it was me,  
I heard the people going wild  
But it was just my fantasy

Life is a dance  
And baby we're just players  
So stand up and smile  
And don't be afraid

This is my night  
This is my song  
Standing right here  
Out on the stage  
Is where I belong  
This is my song  
This is my night  
Standing right here  
Out on the stage  
In the spotlight

I traveled the road  
Wherever the road would lead  
I made mistakes but I  
Wouldn't quit  
I made myself believe  
Dreams come true  
For those who dream  
So one day you can say  
The music be the fruit of life  
And let the music play.

Life is a dance  
And baby we're just players  
So stand up and smile  
And don't be afraid

This is my night  
This is my song  
Standing right here  
Out on the stage  
Is where I belong  
This is my song  
This is my night  
Standing right here  
Out on the stage  
In the spotlight

This is my life  
This is my life  
(8x)
