## **Now I Need You**

## **Donna Summer**

You parting words still echo clear on the day you left me If you need me I'll be there, you said you'd always help me

Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now

L can't seem to satisfy anyone around me You hold my hand and see me through All the things that bound me

Now 1 need you, 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now

Now 1 need you, 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now

I'm calling you now (oh now I need you) Calling you now (oh how I need you) Please come to me now I need you I need you (oh how I need you) Oh how I need you, oh how I need you

Having learned to live with you It's hard to live without you You always said if I were down, To cheer me you would be around

Now 1 need you, 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now Now 1 need you, 1 need you, 1 need you L need you, 1 need you right now

I'm calling you now (Oh how I need you) Calling you now (Oh how I need you) Please come to me now (Oh how I need you) Please come to me now (Oh how I need you) I need you now (Oh how I need you)
