

# Summer Fever

Donna Summer

Winds may come and the winds may flow  
But there's no wind can cool me of my fever, summer fever  
Summer fever

Time of love, time of year  
Temperature's rising, our bodies near in fever, summer fever  
Summer fever

A heat-wave run, a dog-day night  
We're making love, things are right, it's fever, summer fever  
Summer fever

You burn so deep with your love so sweet  
And you satisfy and mystify my fever, summer fever  
Summer fever

Body to body, arms entwined  
Locked in your love, feeling fine with fever, summer fever  
Summer fever

Time of love, time of year  
Temperature's rising, our bodies near in fever, summer fever  
Summer fever

Winds may come and the winds may blow  
But there's no wind can cool me of my fever, summer fever  
Summer fever

You burn so deep with your love so sweet  
And you satisfy and mystify my fever, summer fever  
Summer fever

Fever, summer fever  
Fever, summer fever
