

Sweet Emotion

Donna Summer

Seems every star is out tonight to light our love
So round the moon so full and bright so high above
But if you look real closely there's only me, there's only you
And when you hold me closely, yeah

And now the sky melts in the sea like they are one
It's hard to tell where one first starts and where ends one
That's the way our love is
You part of me me part of you

That's just what love is

Sweet you got the sweetest emotion, baby
Sweet, sweet emotion
Sweet you got the sweetest emotion
Sweeter than sweet
Sweeter than sweet
Sweeter than sweet

You took me from the surface to a deeper deep
Showing me that you
And you are life for me
Our love will last forever
Me loving you, you loving me
We'll always be together oh

Sweet you got the sweetest emotion
Sweet, sweet emotion
Sweet, sweet emotion
Sweet you got the sweetest emotion
Sweeter than sweet
Sweeter than sweet
Sweeter than sweet

Sweet, you got the sweetest emotion
Sweet, you got the sweetest emotion
Listen baby
Listen to me
Sweeter than sweet
Sweeter than sweet
Sweeter than sweet
You got the sweet emotion, yeah
Listen to me
