

# The Queen Is Back

Donna Summer

She walks into the room  
And everybody knows  
It's not a day too soon  
She stands and strikes her pose  
Yeah whohoa

She's back  
Keep on saying that you wanna see her  
Look in the mirror and you wanna be her  
From the beginning it's a long career  
Yes she's back, yes she's back

She's back  
Keep on screaming that you want your diva  
I've always told you that I'd never leave you  
From the beginning it's a long career  
Yes she's back yes she's back

I'm your friend I'm your lover  
I'm your sister my dear brother  
I'm your dear fairy godmother  
Now you know your queen is back

Call the dj call the station  
Dancing all across the nation  
Here for every generation  
Now you know your queen is back

So many years ago on the radio  
She crept into your soul  
And loved to love you oh oh

She's back  
Keep on saying that you wanna see her  
Look in the mirror and you wanna be her  
From the beginning it's a long career  
Yes she's back yes she's back

She's back  
Keep on screaming that you want your diva  
I've always told you that I'd never leave you  
From the beginning it's a long career  
Yes she's back, yes she's back

I'm your friend I'm your lover  
I'm your sister my dear brother  
I'm your dear fairy godmother  
Now you know your queen is back

Call the dj call the station  
Dancing all across the nation  
Here for every generation  
Now you know your queen is back  
The queen is back

Keep on saying that you want me when you're all alone  
Keep on saying that I make you feel like you belong

Keep on saying that you want your diva one on one  
Keep on saying baby baby baby here I come
