

# When Love Takes Over You

Donna Summer

You seem to be in a dizzy spin  
And you can't work it out  
You can't explain the mood you're in  
You're stumbling about

But it's the same thing happening to you  
As happened to me

I understand what you're going through  
Over emotional and confused  
You can't keep up with your change of moods  
But it's true  
These are the things we do  
When love takes over you

You've got no time, for anyone  
Even your friends get in the way  
But you won't take any good advice  
Or listen to what I say

Because it don't just happen to you  
It happens to everyone

I understand what you're going through  
It's nothing new 'cos I've been there too  
It's all too much for a girl like you  
Yes it's true  
There are the things we do  
When love takes over you

Ooh, baby la, la, la, la  
Ooh, baby la, la, la, la

But it's the same thing happening to you  
As happened to me

I understand what you're going through  
Over emotional and confused  
You can't keep up with your change of moods  
But it's true  
These are the things we do  
When love takes over you

I understand what you're going through  
It's nothing new 'cos I've been there too  
It's all too much for a girl like you  
Yes it's true  
These are the things we do  
When love takes over you

I understand what you're going through  
Over emotional and confused  
You can't keep up with your change of moods  
But it's true  
These are the things we do  
When love takes over you

I understand what you're going through  
It's nothing new 'cos I've been there too  
It's all too much for a girl like you  
Yes it's true  
These are the things we do  
When love takes over you
