

Lay With Me

Donnie Iris

Lay with me
Please darlin' lay with me (Baby, please)
Won't you please just stay the night
You can leave at first light
But tonight, baby, please
Lay with me

Stay with me
Darlin' stay with me (won't you please)
Until the night goes away
Won't you please just stay
Please, baby, please just
Lay with me

You look good dressed in candlelight
Dancin' 'cross your thighs
And I look good dress in blue and grey
Those are the colors of my reflection
When I'm drowning in your eyes

So lay with me
Please darlin' lay with me (Baby, please)
Won't you please just stay the night
You can leave at first light
But tonight, baby, please
Lay with me

Won't you please just stay the night
You can leave at first light
But tonight, baby, please
Lay with me
