

Love In Stereo

Donnie Klang

She feelin' me though your girlfriend tellin' me you're ready to go
On the floor to get my attention she dropped it low
She was so seductive, I'd pay a fee if she'd let me touch it
I'm outta my mind the way she looked into my eyes

She said if you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

I said if you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

Stereo, we can make love in stereo
I need you both so we can make love in stereo
Stereo, we can make love in stereo
I need you both so we can make love in stereo

If you're feelin' me though I know a little place where we can go
Baby let me know if you need a private show
We can do whatever, you and her dressed in leather
What's on your mind? Tell me how to do that one more time

If you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

She said if you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

Stereo, we can make love in stereo
I need you both so we can make love in stereo
Stereo, we can make love in stereo
I need you both so we can make love in stereo

If you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

If you wanna break it down, if you wanna break it down
We can break it on down right here
If you wanna break it down, if you wanna break it down
We can break it on down right here

Stereo, we can make love in stereo
I need you both so we can make love in stereo
Stereo, we can make love in stereo
I need you both so we can make love in stereo

So we can make love in stereo
So we can make love in stereo

So we can make love in stereo
So we can make love in stereo
