Stuck In My Head

Donnie Klang

I'm driving
Im headed out to the show
You know I got my tickets
Center stage sitting in the front row
The music playing so loud
I can barely hear a thing
Still hear it when I get home
Cause its silence but I still hear this ringing in my ear
And this is what it all feels like me
Ever since the day she decided to leave
Its playing in my head like a movie

It feels like she hear but she not
She stuck in my head
She stuck in my head
And then you try and tell yourself to stop
But she all in your head
She all in your head
Its like a hit song on the radio
In your head until your eyes is closed
I wish I could turn my mind off
She all in my head
She all in my head
She stuck in my head [4x]

I was on a cruise ship
Out at sea for seven days
I got so used to it
That now that Im back on land
I still feel like Im swaying
Its making me sick to my head
Im feeling dizzy wondering if you miss me (yes)
This is how I feel without you
And this is what it all feels like to me
Ever since the day she decided to leave
Its playing in my head like a movie

It feels like she hear but she not
She stuck in my head
She stuck in my head
And then you try and tell yourself to stop
But she all in your head
She all in your head
Its like a hit song on the radio
In your head until your eyes is closed
I wish I could turn my mind off
She all in my head
She all in my head
She stuck in my head [4x]

I dont know what it is
And I dont know how to get you outta here
But I know I cant get you off of my mind right now
After all we been thru
And
All you put me thru
Its like just something

Something inside me
Wont let me let you go
This is what it feels like

It feels like she hear but she not
She stuck in my head
She stuck in my head
And then you try and tell yourself to stop
But she all in your head
She all in your head
Its like a hit song on the radio
In your head until your eyes is closed
I wish I could turn my mind off
She all in my head
She all in my head
She stuck in my head [4x]

If somebody else out there
Going thru this lemme know
That Im not alone
Lemme hear you say yeahh
