Be Real Black For Me

Donny Hathaway

Our time, short and precious Your lips, warm and luscious You don't have to wear false charms 'Cause when i wrap you in my hungry arms Be real black for me Be real black for me

Your hair, soft and crinkly Your body, strong and stately You don't have to search and roam 'Cause I got your love at home Be real black for me Be real black for me

In my head i'm only half together If i lose you, i'd be ruined forever Darling, take my hand and hold me Hold me (4x)

You know how much i need you To have you, really feel you

You don't have to change a thing No one knows the love you bring

Be real black for me
