

Little Girl

Donny Hathaway

Hello, little girl, little girl, little girl

Hello, little girl, little girl, hello

Where have you been?

Why did you go? Little girl, hello

You know that you're wrong little girl, little girl

I shouldn't have to tell you what's wrong

Little girl, little girl, you know that was wrong

For you to leave our happy home

Oh, baby, little woman, hello

[?]

Hello, would you stay little girl, little girl?

How long would you stay this time, little girl?

How long would you stay for you to decide to go away?

Little girl, hello

You don't know it's been without you, baby

Come on in, sit down

Let me tell you how it's been without you, baby

Lonely, oh, it's been so lonely, yeah

Lonely baby, hey, it's been so lonely

Why did you have to go? How long would you stay?

Can't you see, can't you see that I love you? Yeah
