

# You Were Meant For Me

Donny Hathaway

You were meant for me  
No one else could come between this love, I know  
Cause I'll never let you go

You and me...it seems  
Never have a problem we can't overcome  
Cause you'll always be the one

Never thought I'd be so happy  
Loving you has made feel so fine  
I can see my friends turn green with envy  
Everytime I tell them, I'm so glad you're mine

You were meant for me  
No one else could come between this love, I know  
Cause I'll never let you go

You and me it seems...never have a problem we can't overcome  
Cause you'll always be the one....yeah

Never did one thing to hurt me  
You always understood my ways  
If I could, I'll stay right here beside you  
With your hand in mine, making love for days

You were meant for me  
No one else could come between this love, I know  
Cause I'll never let you go

You were meant for me
