You Were Meant For Me

Donny Hathaway

You were meant for me No one else could come between this love, I know Cause I'll never let you go

You and me...it seems Never have a problem we can't overcome Cause you'll always be the one

Never thought I'd be so happy Loving you has made feel so fine I can see my friends turn green with envy Everytime I tell them, I'm so glad you're mine

You were meant for me No one else could come between this love, I know Cause I'll never let you go

You and me it seems...never have a problem we can't overcome Cause you'll always be the one....yeah

Never did one thing to hurt me You always understood my ways If I could, I'll stay right here beside you With your hand in mine, making love for days

You were meant for me No one else could come between this love, I know Cause I'll never let you go

You were meant for me
