

## Big Mouth

Donots

This conversation's going down the drain  
And here I go again  
I spill my sarcasm all over you  
When respect is due  
I really don't mean to offend  
But I do it every day  
My twisted mind gets out of hand  
And I scare you all away  
(Now) 7 days a week 1000 words I shouldn't speak  
I got a big, big mouth  
A big, big mouth  
Nothing that you say really matters anyway  
I got a big, big mouth  
A big, big mouth  
So please don't take it personally  
So please don't take it personally  
So I keep on talking until I smash it up  
You know, I just can't stop  
I drive the dagger right into your heart  
And tear it all apart  
I really don't mean to offend  
But I do it every day  
My twisted mind gets out of hand  
And I wish myself away  
7 days a week I give myself the creeps?
