

Come Away With Me

Donots

Take me back to day one
Right back where I belong
And take me over the edge
And over again
Take me back to square one
Right back where it's begun
And push me over the edge
And stop me again
Come away with me
While the world's asleep
Walk from sea to shine and sea
Find ourselves a place to be
Take me back to square on
Right, right into the sun
And lean right over the edge
And start at the end
Come away with me
While the world's asleep
Walk from sea to shine and sea
Find ourselves a place to be
Come away with me
Anywhere but here
While the world is fast asleep
Find ourselves a place to be
Day by day and mile by mile
Over the edge, over again
Day by day and mile by mile
Over the edge, over again
Come away with me
While the world's asleep
Walk from sea to shine and sea
Find ourselves a place to be
Come away with me
Anywhere but here
While the world is fast asleep
Find ourselves a place to be
Day by day and mile by mile
Over the edge, over again
Day by day and mile by mile
Over the edge, over again
Day by day and mile by mile
