

## Control

Donots

It takes a heart to forgive  
Takes a soul to forget  
Takes up all of your time  
You're going nowhere fast  
Gotta get over yourself  
And bury the dead  
Now if you make a guess  
You know your luck won't last  
You find that lies don't lie  
And the past won't rest  
Makes you get down on your knees  
And say: Off with the head  
You gotta throw it away  
It's getting out of control  
It's got you spinning around  
Turns you upside down  
Takes your final breath  
Before you sink and drown  
It's only in your mind but  
It makes you wanna lose your head  
You wanna throw it away
