

## Don't Ever Look Down

Donots

Weel, I've been there before  
And I know how it ends  
The bricks will not move  
If I Don't wake my hands  
Takes hours to climb  
And seconds to fall  
So don't you look down  
When you take on that wall  
Gallows are patient  
So hang in there  
Who ever told you  
This life was fair?  
Takes hours to climb  
And seconds to fall  
So don't you look down  
When you take on that wall  
Well, I've been there before  
And I know how it ends  
Your heart skips a beat  
The feet skip the dance  
Takes hours to bleed  
A lifetime to mend  
And maybe forever  
to understand  
The fact that our scars  
Can only contain  
The memories and stories  
But not the pain  
Takes hours to climb  
And seconds to fall  
Don't ever look down  
When you take on that wall  
So dive right into the clouds  
And never ever look down  
Don't let your feet  
touch the ground  
And don't look down,  
don't look down  
Don't you ever look down
