

Get Going

Donots

I know I have found a perfect way to aggravate you without a word
I would cast a glance at you and then Içf wait until it hurts
You gotta listen to the silence, read between the lines that you cançf find
Cause it doesnçf take a single word to tell you what is on my mind
So how much did you understand of everything I didnçf say?
Get going - You work it out
Get going - The time is running out
Get going - Figure it out
No need to talk about it
Get going - You work it out
Get going - The time is running out
Get going - Go, sort it out
No need to talk about it (now!)
I can feel the tension when I look at you like a loaded gun
So you call me trigger-happy?
Donçf you know the show has just begun?
Içfll stare you down, Içfll steal your crown without a sound
Tell me, are you ready for a knock-out in the final round?
So how much did you understand of everything I didnçf say?
Thereçf truth in what you havençf heard
And hush is a four-letter word
So here I sit and watch you burn
And stare until your stomach churns
You cançf run and you cançf hide
Içf gonna strike you with my eyes
