Here's to the years gone by To rivers running dry Where have you been all your life? Time takes too much time A bitter kiss good-night Where have you been all your life? How can you say you've come a long, long way? You only wait for yesterday Here's to the years gone by To rivers running dry Where have you been all your life? Time takes too much time A bitter kiss good-night Where have you been all your life? How can you say you've come a long, long way? You only wait for yesterday Let the truth be told Heaven knows you got hell to pay Let the truth be told You wait for yesterday Here's to the years gone by To rivers running dry Where have you been all your life? Time takes too much time A bitter kiss good-night Where have you been all your life? Where have you been all your life?
