

## Today

## Donots

Good morning, my faint heart  
Here comes the caffeine injection  
Get off to a flying start  
Let's face it, retrace it  
Put my words into action  
Cause it's time to play my part  
Right the wrong  
Don't play along  
With everyone  
Cause today belongs to me  
Hey small life, I'm waiting  
And tired of hesitating  
So give me an overdose  
Of good luck cause I'm stuck  
Between boredom and hating  
I know how the true story goes  
Right or wrong  
Don't sing my song  
For everyone  
Cause today it's just for me  
Somehow  
Remember my name
