

## Changes

Donovan

Everyone is right  
Everything is wrong  
Don't let the changes get you down, man  
'Cos everyone is wrong  
Everything is all right now  
Don't let the changes get you uptight

Butter my toast, and I'll go  
Button up a coat, and let's go  
Off to the coast we must go  
Don't wanna boast, but I'll grow much better there  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man

Vietnam, Biafra  
The absurdity of greed  
How much can one man possibly need?  
Sickness and disease  
And ignorance on every side  
Don't let the changes get you tight

Button your toast and let's go  
Button a coat and I'm gonna go  
Off to the coast we must go  
Don't wanna boast, but I'll grow much better there  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man

Button your toast and let's go  
Button a coat and I'm gonna go  
Off to the coast we must go  
Don't wanna boast, but I'll grow much better there  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man

Don't let the changes get you down man  
Don't let the changes get you down man  
Don't let the changes get you down man...
