

Dear Heart

Donovan

Dear heart, ever since the first time
Our hearts have beat as one
Here among the chaos below
Longing only for your song

Love is the melody
Always for you and me
Love is the harmony
The bond between you and me
Dear heart, dear heart, dear heart

Dear one, never ever sing
For me your love has gone
Forever and forever
We have known the constant one

Love is the melody
Always for you and me
Strong is the harmony
The bond between you and me
Dear heart, dear heart, dear heart
Dear heart, dear heart, dear heart

Love is the melody
Always for you and me
Strong is the harmony
The bond between you and me
Dear heart, dear heart, dear heart

Dear one, never ever sing
For me your love has gone
Forever and forever
You will be the only one

Love is the melody
Always for you and me
Strong is the harmony
The bond between you and me
Dear heart, dear heart, dear heart
Dear heart, dear heart, dear heart
Dear heart, dear heart, dear heart
Dear heart, dear heart, dear heart
