

# Do You Hear Me Now

Donovan

Freedom fighters, speak with your tongues  
Sing with the might of the wind in your lungs  
Do you hear me now? Do you hear me now?

Peace loving women, single or wed  
Give thanks for the mercy of a child with one head  
Do you hear me now? Do you hear me now?

My mama told me, papa said it too  
Son, the world's divided and you know your cause is through  
Do you hear me now? Do you hear me now?

There's snow-men in the winter, blossoms in the spring  
If they drop the bomb in the summertime, it won't mean a doggon  
e thing  
Do you hear me now? Do you hear me now?

Freedom fighters, speak with your tongues  
Sing with the might of the wind in your lungs  
Do you hear me now? Do you hear me now?
