

Earth Sign Man

Donovan

I'm an earth sign, mama, I want you to understand
I'm an earth sign, mama, take me by the hand
I like my trees and books, I like my woman to cook
I'm an earth sign, mama, take a look.

You're an air sign, honey, you're all around me all the time
You're an air sign, honey, you're around me all the time
You're like the mountain air flying through my hair
You're an air sign, honey, I do declare.

I'm an earth sign, mama, I want you to understand
I'm an earth sign, mama, take me by the hand
You're like a balmy breeze moving through my leaves
You're an air sign, baby, I do believe.
