

## Little Teddy Bear

Donovan

Come on little fella, dry your pretty eyes  
Sometimes there have to be clouds up in the sky  
After every rainfall all the flowers grow  
Jump into my lap now, you know I love you so

You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear  
You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear

What a great big heartache for such a little girl  
I can see you carry the weight of the world  
Let me show you how to find the magic charms  
I can see you smiling, run into my arms

You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear  
You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear

When the silver lining seems to fade away  
Feeling oh so empty, nothing you can say  
There's a little island in the stormy sea  
I will be your haven if you call to me

You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear  
You're just a little teddy bear  
To cuddle up to me (teddy bear)  
You're just a little teddy, teddy bear
