

Nature Friends

Donovan

All the furry animals, one, two, three
I'd like to hold them close to me
All the furry animals, one, two, three
And hold them close to me

All the little birdies, up high in the sky
I'd like to be like you and fly
All the little birdies, up high in the sky
And be like you and fly

All the little fish, I wish I was like you
To swim up and down in the deep, deep blue
All the little fish, I wish I was like you
To swim in the deep, deep blue

All the fishes and the feathers and the furry little
fellas
Are friends for you and me
The fishes and the feathers and the furry little fellas
Are friends for you and me
