

# Natural Thing

The Doobie Brothers

People outside my window  
Going everywhere  
People that are happy  
People without a care

We all got to be loved  
It's a natural thing, don't you know  
The sooner we find what we need  
Gonna be feeling it, happy to show

I'm gonna change my method  
Get me a big ham bone  
Gonna make all the leaders of the country  
Get it together and bring it on home

We all got to be loved  
It's a natural thing, don't you know  
The sooner we find what we need  
Gonna be feeling it, happy to show

Those men in the circus  
Those men on the wire  
Their feet hanging fifty feet up  
Know they're counting on their daily luck  
To bring them through the fire

We all got to be loved  
It's a natural thing, don't you know  
The sooner we find what we need  
Gonna be feeling it, happy to show

Those men in the circus  
Those men on the wire  
Their feet hanging fifty feet up  
Know they're counting on their daily luck  
To bring them through the fire
