

Wheels of Fortune

The Doobie Brothers

Caught up in wheels of fortune you better see
Come on give it up you got what's coming to you
No use for you to struggle now you're in too deep
Gonna be a long long time before you're through

Changin wheels of fortune
Driving us on and on
Winning sometimes loosing
As soon as it's here it's gone

I'm so tired of loosing
But I still play the game
And I know there's no reason
Still I go on searching just the same

Well I kicked around your city, seen your vanity
Mr. society can you here me
You take your satisfaction and you cover all the action
But you know that it won't help you in the end
