Swords Of Doom

DoomSword

We're the ones
we're the ones
the chosen to wield the swords of doom
we've got to fight to free from the curse
that made us the bringers
of scorn and war

"In countless battles I'll have to fight 'till my sacred blade will shine bright this holy sword will guide my heart and only death can do us apart"

"Fight, my warrior, fight Show the gods your might"
