

I can delete from you
some past memories
I can delete from you
and set up your peace
I can delete from you
and every byte start to glare
over parts of your brain, yeah!

Our Digital Freedom
to keep just the better side of my cursed past
Our Digital Freedom
and trash all the junk I want in a short byte blast
Our Digital Freedom
to keep just the better side of my cursed past
Our Digital Freedom
and trash all the junk I want in a short byte blast

I can delete from you
whatever you think
I can delete from you
and tune up your will
I can delete from you
and every byte start to glare
flashing parts of your brain, yeah!

Our Digital Freedom
to keep just the better side of my cursed past
Our Digital Freedom
and trash all the junk I want in a short byte blast
Our Digital Freedom
to keep just the better side of my cursed past
Our Digital Freedom
and trash all the junk I want in a short byte blast,
yeah!
