It's Today

Dope Stars Inc.

We're living all alone Wherever the first light we see We're jamming all the roads To find a reason to exist The times we're living through Are really worse than we all think We are trapped in a world That just grow grow grow.

It's today That we have to wake up All the energy we own In a way or else we know It's the only way To change the world Not an option to retreat It's a rule a certain fact Our time is dead Our time is dead Our time is now And now is past.

We're trapped in a world That still refuses technology It's better to keep slow And please corporatocracy But even if we stop To be the slaves of world machine Their power is so strong And still grows grows grows.
