

## Plug 'N' Die

Dope Stars Inc.

Welcome to the electro fight of the robots  
the light that never reflects the beams of the battle  
i would like to see to feel to get inside this force  
giving to my self the life i never had before

never you can fail  
this is your last day  
your body is still mechanical  
burning in my head  
pulsing inside me  
creating a new connection port  
never you can fail  
this is the doom's day  
your body is still mechanical  
my body is still mechanical!

Cause i'm god  
and there's nothing before  
cause i'm god  
i don't need anymore  
cause i'm god  
welcome to my own hell  
plug and die  
plug in my self
