

## Always

Dope

Let's go back to the start  
Like it use to be  
Before you fell apart  
And you blamed it on me  
Back when you were my friend  
Do you remember back when  
All the plans that we made  
Can we get back to those days

Those days come every now and again  
No way I feel like this is the end but

Always is in your eyes  
In all ways I realize  
That always is you and I  
Always

Let's go back to the start  
Like it use to be  
Before your broken heart  
And your hatred for me  
Back when all this began  
Do you remember back then  
All the plans that we made  
Can we get back to those days

Always is in your eyes  
In all ways I realize  
That always is you and I  
Always

Is there any wonder I'm not right  
Where do we go now where do we go now  
Is there any wonder you wont fight  
Where do we go now where do we go now  
Have there been to many wrongs to right  
I'd say goodbye but

Always is in your eyes  
In all ways I realize  
That always is you and I  
Always
