Nothing for Me Here

How many times should I stop and believe in myself I don't believe much in anything I've seen enough of the pain and the shame and the blame It don't amount up to anything

Now I rewind Back to a time Where I would do anything and pay any price And I need time 'cos I'm starting to think That the promises ain't worth the sacrifice

And there's nothing for me here! There's nothing for me here...

How many nights should I walk in my sleep As I dream of how much I wanna run away I've had enough of the stress and the mess I can't take any more I gotta get away

Now I know why I'm empty inside And I'm sure I've only got myself to blame And I don't try To view the lies It's just a waste of time we'll never be the same

There's nothing for me here There's nothing for me here There's nothing for me here I gave you my life and it's fading away There's nothing for me here I gave you my life just to fade away

And I can't go on And I can't explain When everyone's going on Life's folding the blame And I can't rewind And there's no escape It's been so long that I just Don't feel the same

There's nothing for me here There's nothing for me here There's nothing for me here I gave you my life and it's fading away There's nothing for me here I gave you my life just to fade away

How many times should I stop and believe in myself I don't believe much in anything
