

One Fix

Dope

About time, I dont care how you've been
I know you've got and I want it
Long night, and I dont want it to end
I'm glad to see you coming
I know what they think they do
Say no is what they'll say to

It's my dope, so what's it to you
I know what I would do
For one fix, like this
It's my trip and it dont mean shit
One fix, with my bitch
And I'm lit, and I get my kicks
One fix

Long drive in front of me
My steering whell is breathing
I'm high on everything
To bring me down I'm drinking
Wo no, the cops may nail you
Yeah so, I've been to jail too
So low, what can I tel you
Who knows just what I'd do

For one fix, like this
It's my trip, and it dont mean shit
One fix, with my bitch
And I'm ripped, and I get my kicks
One fix

For one fix, like this
It's my trip, and it dont mean shit
One fix, with my bitch
And I'm lit, and I get my kicks
One fix
