

Scorn

Dope

They're killing me

Broken my face, cut me to the bone
Trapped in this hate, you imprison me
Gave up my faith, so just leave me alone
Strapped to the pain, no forgiving me

So fuckin' scorn that you wouldn't believe
I fill the tub with gasoline

Nobody taught me to hate
Nobody taught me to feel
You only showed me your pain
But you, you never taught me to heal

Tear at the scab, infect the wound
Take another stab at the enemy
Light up the blame, fire up the spoon
Blowin' out me brain 'cause you're killing me

So fuckin' scorn that you wouldn't believe
I fill the tube with gasoline

Nobody taught me to hate
Nobody taught me to feel
You only showed me your pain
But you, you never taught me to heel

Nobody body taught me to
(Hate, hate, hate, hate, hate, hate)
Nobody body taught me to
(Hate, hate, hate, hate, hate, hate)

As I stand and I wait and I learn
I have been scorn
As I live and I die and I burn
I have been scorn

Broken my face, cut me to the bone
Trapped in this hate, you imprison me
Gave up my faith, so just leave me alone
Strapped to the pain, no forgiving me

So fuckin' scorn that you wouldn't believe
I fill the tube with gasoline

Nobody taught me to hate
Nobody taught me to feel
You only showed me your pain
But you, you never taught me to heel

Nobody taught me to hate
Nobody taught me to feel
You only showed me your pain
But you, you never taught me to heel

Nobody body taught me to

(Hate, hate, hate, hate, hate, hate)
Nobody body taught me to
(Hate, hate, hate, hate, hate, hate)
