

Sex Machine

Dope

Long hair big lips
Little doll frame round her plastic tits
She's automatic super clean
Little bang baby all American dream
American dream

My little baby is electric on it
My little baby is a sex machine
My little baby does it just like I want it
My little baby is a sex machine

Start her motor
Take your time
Rev her up slowly and pull the line
Are you ready you wanna play
Put your pedal to her metal
She'll blow you away

My little baby is electric on it
My little baby is a sex machine
My little baby does it just like I want it
My little baby is a sex machine
