Sing

Dope

Some people sing for life some people sing for death
Some people sing to sing the songs that they like best
Some people sing for broke some people sing for fame
Some people sing for hope some people sing for pain

So when you feel like this and really wish
That everyone else would just go away
When you feel like this and really wish
That everyone else would just go away

Free your mind and

Sing for the man on the corner
Sing for your love of God
Sing for your apathy
No matter, no matter what you believe
Sing just a little bit louder
Sing with all you've got
Sing along with me
No matter, no matter what you believe

Some people sing for love some people sing for hate
Some people sing to sing a song cause they relate
Some people sing inside some people sing in vain
Some people sing to lose some people sing to gain

So when you feel like this and really wish
That everything else would just go away
When you feel like this and really wish
That everything else would just go away

Open your mind and

Sing for the man on the corner
Sing for your love of God
Sing for your apathy
No matter, no matter what you believe
Sing just a little bit louder
Sing with all you've got
Sing along with me
No matter, no matter what you believe

Oh yeah, what you believe
What do you believe?

So when you feel like this and really wish
That everything else would just go away
When you feel like this and really wish
That everything else would just go away

Some people sing for life some people sing for death
Some people sing to sing the songs that they like best
Some people sing for hope some people sing for pain

So let me hear you people

Sing for the man on the corner

Sing for your love of God
Sing for your apathy
No matter, no matter what you believe
Sing just a little bit louder
Sing with all you've got
Sing along with me
No matter, no matter what you believe

Sing for the man on the corner
Sing for your love of God
Sing for your apathy
No matter, no matter what you believe
