

Spine For You

Dope

Somethin's wrong with my life and I'm crazy
Somethin's hard on my mind, guess who
It's tough to live with the lights on maybe
All we need is a spine for you

Somethin's wrong with my mind and I'm angry
Somethin's hard on my life, guess who
It's tough to light what we live for maybe
All we need is a spine for you

Super guy is a long way baby
MR. Man's not tired of you
Procrastination's the long way maybe
All we need is a spine for you

Bam, I'd like to bash you in the head
Damn, I cant make sense of what you've said
Man, that's just the way it's always been
Yeah, I guess I'm better off dead
Fuck tomorrow, fuck tomorrow

So I'm told suicide's outdated
Yeah, what's misery supposed to do
Sell your soul or it's lights out maybe
All we need is a spine for you

What you willin to fight for baby
Sacrifice you should be used to
Are you willin to die for it maybe
All we need is a spine for you

Bam, I'd like to bash you in the head
Damn, I cant make sense of what you've said
Man, that's just the way it's always been
Yeah, I guess I'm better off dead
Fuck tomorrow, fuck tomorrow

What you willin to fight for baby
Sacrifice I've been used to
Are you willin to die for it maybe
All we need is a spine for you
