Well are you messin around with me
Truth is I've seen the ups and the downs
And through the losses and the founds

Stop thinking everybody's shakin You never get a break you're never gonna go Stop thinking everybody's shakin I never gotta break but

I survive
You can tryn but you can't deny me
I survive
Like a lie that just won't die
I survive

Fuck you ya think I'm messin around You think I'm messin around Well I ain't messin around you see Back off you'll find your ass on the ground And when I roll through your town Well I'll be layin you down to sleep

Stop thinking everybody's shakin You never get a break you're never gonna go Stop thinking everybody's shakin I never gotta break but

I survive
You can tryn but you can't deny me
I survive
Like a lie that just won't die
I survive
