

Violence

Dope

Break it down like you know its voted
I got it cocked and loaded
I got a sickness to feed

So break it down like you're undevoted
Don't need no fucking motive
I hope you're ready to bleed

Everybody down on the mother fucking floor right now
I ain't messing around mother fucker
Everybody down on the mother fucking floor right now

I want your violence mother fucker
Show me your violence (violence)
Give me your violence mother fucker
Show me your violence
Yeah

"I think we needed violence."

Break it down now the blood is flowin'
The body count is growing
I love the sounds of the screams

So break it down with the system blowin'
And feel the sickness growin'
It's like a fuckin' disease

Everybody down on the mother fucking floor right now
I ain't messing around mother fucker
Everybody down on the mother fucking floor right now

I want your violence mother fucker
Show me your violence (violence)
Give me your violence mother fucker
Show me your violence
Yeah

So break it down!
Motherfucker break it down!
Motherfucker break it down!
Motherfucker break it down!

"What scares us is I think we needed violence."

Everybody down on the mother fucking floor right now
Everybody down on the mother fucking floor right now

I want your violence mother fucker
Show me your violence (violence)
Give me your violence mother fucker
Show me your violence
Yeah

So break it down!
Motherfucker break it down!
Motherfucker break it down!

Motherfucker break it down!
