

There's A Rising Moon

Doris Day

There's a rising moon for every falling star
Makes no difference just how sad or blue you are
One never knows about tomorrow
Just what another day may bring

One moment in your heart it's Winter
Comes a rose and suddenly it's Spring
There'll be times of sorrow, there'll be times of joy
And a bright tomorrow for each girl and boy

Who knows what happiness is waiting
Just a kiss away from where you are
There's a rising moon for every falling star

Who knows what happiness is waiting
Just a kiss away from where you are
There's a rising moon for every falling star
