## You My Love

My love is ever you, my love Now and forever, you my love. You walked into my lonely world, What peace of mind your smile unfurled.

Yes, and because of you, my love, My wishful dream came true, my love. In my uncertain heart, I'm only certain of How much I love you, my love...

In my uncertain heart, I'm only certain of How much I love you, my love

Yes, and because of you, my love, My wishful dream came true In my uncertain heart, I'm only certain of How much I love you, my love
